**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Priority*

Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Japan on May 21, 2003. It is noted, however, that applicant has not filed a certified copy of the Japanese application as required by 35 U.S.C. 119(b).

### *Claim Rejections - 35 USC § 103*

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Shaw (U.S. Patent No. 6,575,606) in view of JP 62-145898. Shaw teaches a lamp unit for an image projector comprising lamp body 10 comprising a lamp bulb and a reflector; a lamp box 30 being provided to hold the lamp body; and a cable, 12 comprising a connector at an end thereof, for supplying electric power to the lamp body col. 2, lines 51-52. The applicant is directed to review figures 2-5. Shaw does not teach wherein the lamp box comprises two posts placed therein with a small space therebetween, and the cable is fixed by being inserted into the space between the two posts and by being wound around the two posts. JP 62-145898 teaches comprises two posts 3 4 5 placed therein with a small space therebetween, and the cable is fixed by being inserted into the space between the two posts and by being wound around the two posts. Also shown is a cover member 8 and cable insertion opening 9. The applicant is directed to review figure 5. It would have been obvious to one of ordinary skill in the art at the time the

invention was made to utilize the features taught by JP 62-145898 for the purpose of preventing inadvertent movement of the cord.

*Allowable Subject Matter*

Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

*Conclusion*

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
